

Planet & People Impact Report 2021/2022

Updated September 2022

Planet & People

EMPOWERING ENVIRONMENTALISTS

What people are saying about us:

Year 6 girl: "It [PAW] was very good - everyone could get involved in their own way. It didn't matter if you're shy or loud, it felt like we had a say."

Year 6 boy: "It was fun but it was moving - it made me feel like we can all do something to protect the world we live in."

Teacher: "It was lovely to see so much positivity poured into the children's thinking about climate change!"

Planet & People CIC

Planet & People (CIC) was founded by a teacher and ecologist team. We seek to engage children in environmental issues, working to inspire change, to encourage a lighter ecological impact and have a positive influence on the change-makers of the future. We are passionate about positivity, resilience, confidence, love for the natural world, schools as beacons of change and encouraging a desire to protect the Earth.

Our work is predominantly through Planet Action Workshops which empower the next generation to create a better future for planet and people. We plan to adapt our Planet Action Kit into a Planet Action Club online to reduce waste and increase impact. We also work through collaborations with similar groups such as Network for Environmental Education, Devon (NEED) and UK Schools Sustainability Network (UKSSN).

2021/2022 Summary

The big change for us this year has been moving from delivering Planet Action Workshops to small groups to being able to deliver in schools to much larger audiences as COVID restrictions eased. We have built on the material we have developed for our Planet Action Kits to create workshops which empower and inspire young people to use their voice for the planet ('Speak Up') and inspire hope through rewilding and restoration stories as a fuel to action ('Hope'). We have celebrated the environmental achievements of the year ('This Year On Earth') and we have designed a sustainability support service through our 'Environmental Health Check'. Our most recent workshop theme is 'Planet Minded' which helps young people develop tools and skills for mental wellbeing through time spent in nature.

The generosity of our supporters has enabled us to scale our business this year and offer all of our services on a fully funded basis. We have set up the Planet Action Fund, a ring-fenced fund to extend our reach and support other environmental and social projects.
